

Incredible arcade racing “caRRage” is available globally!

St. Petersburg, 14th of December, 2015. Nova Games announces global availability of its flagship product "caRRage". The game is ready for download from App Store in every country via [this link](#).

caRRage is an addictive arcade racing game that reveals a post-apocalyptic universe, ruled by mad and desperate drivers. Experience mind blowing races on a number of tough-looking vehicles: starting with a dusty rust-bucket and a van armed with a circular saw and ending with an indestructible truck blasting away everything in its way!

Amazing graphics and latest features of the Unity engine, incredibly realistic car crashes and destructions, colorful explosions and shooting. All this will plunge you into the good old arcade racing atmosphere in one of the most dynamic and beautiful games that you've ever seen on mobile platforms.

Only caRRage features:

- 11 unique racing locations (9 racing tracks, 1 open arena, and the truck route)
- Exciting single-player campaign and Wi-Fi-based local multiplayer mode
- 3 highly detailed game environments in Full 3D: Desert, City, and Industrial Area
- 3 game modes: classic race with weapons, delivery mode featuring the Truck, and the open arena battle
- 8 vehicles (cars, vans, and other deadly “chariots”) with a wide range of upgrades and modifications
- 34 gears that turn your car into the weapon of vengeance
- 9 types of upgradable weapons
- 40 original decals
- 3 exclusive soundtracks, created to top the atmosphere of the game

At the moment, the game is available in the App Store globally, and the massive marketing campaigns are coming.

For more information, please contact Sergey Grachov (sergey@novagames.com), who is the General Producer of the game.
