

#1 logical PvP game «Biters!» is available for download in App Store Russia!

St. Petersburg, 1st of November, 2015. Nova Games announces general availability of "Biters!" game, which is ready for download in Russian/CIS App Store via [this link](#).

"Biters!" is a fascinating and colorful game in keeping with the best traditions of the «Hexagon» board game with bright graphics and dynamic gameplay.

"Biters!" is based on the classic gameplay of "Hexagon". We took a basic classic, added a bunch of new ideas, created charismatic characters, introduced superpowers, came up with an ideal balance, and brought it to life with interactive objects on colorful maps. In the end we got a great strategic game that gives a lot of pleasure in every battle with a human or computer.

Core features:

- Thrilling combat for 2, 3, or 4 players. Online, on one iPad/iPhone, or in any combination. Participate in the arena battles against real opponents or the computer!
- Power-ups, bonuses, supreme units, and boosters. With them it's all fun, dynamic, and unpredictable!
- Different races: Zombies, Beauties, Werewolves, Humans, Vampires, and Overminds. Each race has its own special abilities and superpowers.
- Six full-fledged campaigns for a single player + new campaigns in development.
- Each race has its own bosses with unique superpowers.
- The maps where battles take place are different in shape, size, and design. In addition, they contain various interactive objects that affect the course of a fight. They add a lot of variety to the game.

At the moment, the game is in the soft launch phase in Russian/CIS App Store, but it will be available worldwide in a few months.
