

Nova Games is releasing its first game Lanista: Hero Arena in Q4 2014

Saint-Petersburg, October 10 2014. Nova Games together with game development studio Krivorukoff is releasing its first game Lanista: Hero Arena on iOS platform for Apple iPad in Q4 2014.

Hero Arena is the place where the gladiators fight for their freedom: professional warriors, killing machines and magicians. No country for loners and only the strongest team will win the top spot.

Now everything is in your hands, you are a mentor and a master of the gladiators, you are the Lanista.

It is not a regular RPG/MOBA game, it is a true manager of the arena where smart positioning even of the weak warriors can lead to the triumph.

- Choose best fighters and create your unique city
- Improve the skills of your warriors to have an advantage over your enemies
- Buy and improve the weapons and the armors if you want to defeat the enemy
 - Improve city buildings to buy, train and cure the fighters and also to create your unique equipment
 - Create a clan, unite your friends and do raids on enemies' arenas
 - Become the number one or leave the arena in disgrace!
